WARNING - USER RESPONSIBILITY

FAILURE OR IMPROPER SELECTION OR IMPROPER USE OF THE PRODUCTS DESCRIBED HEREIN OR RELATED ITEMS CAN CAUSE DEATH, PERSONAL INJURY AND PROPERTY DAMAGE. This document and other information from Parker Hannifin Corporation, its subsidiaries and authorized distributors provide product or system options for further investigation by users having technical expertise. The user, through its own analysis and testing, is solely responsible for making the final selection of the system and components and assuring that all performance, endurance, safety and warning requirements of the application are met. The user must analyze all aspects of the application, follow applicable industry standards, and follow the information concerning the product in the current product catalog and in any other materials provided from Parker or its subsidiaries or authorized distributors.

To the extent that Parker or its subsidiaries or authorized distributors provide component or system options based upon data or specifications provided by the user, the user is responsible for determining that such data and specifications are suitable and sufficient for all applications and reasonably foreseeable uses of the components or systems.

OFFER OF SALE

The items described in this document are hereby offered for sale by Parker Hannifin Corporation, its subsidiaries or its authorized distributors. This offer and its acceptance by the provisions stated in the detailed 'Offer of Sale' which is available upon request.

HMI Touchscreen

TS8000 Series

Description

TS8000 is a high performance web-enabled HMI touchscreen range with powerful features that would normally only be found in PC-based displays.

The TS8000 is able to communicate with many different pieces of hardware through its 10/100Base-T Ethernet port.

Furthermore a USB programming port allows programs to be downloaded, or access to trending and data logging, while data can be collected and stored on a standard CompactFlash card, freeing up internal memory.

Unlike similar competitive units, programming software for the TS8000 is a free download! DSI8000 software works with all TS8000 units, and features user friendly drag and drop data mapping. It contains a powerful set of icon-based configuration, display, control, and data logging tools uniquely designed to take full advantage of the TS8000 series architecture.

Features

- Multi-lingual graphical interface**
- NEMA 4X protection**
- Five screen sizes**
- Built-in symbol library of common objects**
- Built-in web server/Virtual Panel**
- Built-in “C-based” script language**
- CompactFlash support**
- Integrated automatic multiple protocol conversion**
- Five communications ports**
- Free DSI8000 programming software**

Options

For harsh environments where abrasion to the screen surface is a concern, we offer protective clear film overlays for the TS8000 screen. Available for all five sizes of TS8000, the overlays are packaged in bundles of 10. By use of a pre-applied low-tack adhesive, application and removal of the overlay is a snap!

Part Number	Description
8000/OL/03	Protective overlay sheets for TS8003
8000/OL/06	Protective overlay sheets for TS8006
8000/OL/08	Protective overlay sheets for TS8008
8000/OL/10	Protective overlay sheets for TS8010
8000/OL/15	Protective overlay sheets for TS8015

Custom Branding

For a customized appearance on your machinery, Parker can provide the TS8000 with your company logo or graphics. Please contact your local territory manager or authorized distributor for further details. Minimum quantities and restrictions apply.

Communication Cards

TS8000 Series

Description

In addition to the standard on-board communications provided with the TS8000 (RS232, RS485, and Ethernet), these communication card options allow even more connectivity and integration of the TS8000 into many popular fieldbus communication networks. Integrated protocol conversion also allows the TS8000 to bridge between devices that otherwise could not communicate directly with each other.

Features

CANopen Communications Interface	
Part Number: 8000/CB/00/00	
Supported Protocols	CANopen SDO Master
Communication Speed	Selectable by software up to 1 Mbits/s
Communication	With Drive System Explorer software using RTNX protocol
Suitable for drives	AC890 version 3.2+

DeviceNet Communications Interface	
Part Number: 8000/DN/00/00	
Supported Protocols	DeviceNet – Slave Group 2 only
Communication Speed	Selectable by software up to 500 kbits/s

Firewire Communications Interface	
Part Number: 8000/FA/00/00	
This card allows data exchange between the TS8000 and an AC890 fitted with an 8903/FA/00 Interface	
Communication Ports	Port A : IEEE 1394A Port B : IEEE 1394B
Note : The TS8000 must use a Class 2 or SELV rated power supply	

Link Communications Interface	
Part Number: 8000/LK/00/00	
Supported Protocols	LINK
Communication Speed	2.7Mbits/s
Allows data exchange between TS8000 and SSD LINK fiber optic network	

Profibus-DP Communications Interface	
Part Number: 8000/PB/00/00	
Supported Protocols	EN50 170, 1
Communication Speed	Up to 12 Mbits/s
